Editorial comments to authors

Title: Names (First and Last name in full, middle name as initials) and affiliations of authors should be written correctly. Correspondence authors' contact address (email and telephone number) should also be stated.

Abstract: format to accommodate the required word (250) limit. Avoid using subheadings in this section.

Combine the results and discussion into a single section.

The ethical approval number for the use of animals in experiment should be stated.

Move all tables and figures under the reference section.

Separate all integers from decimal numbers with a decimal point and NOT commas.

In-text references should be in superscript numerals without brackets, and placed after commas or full-stop.

All botanical and zoological names should be italicized

Adhere strictly to the Journal's style for listing references. Abbreviate all journal names without italics, and list all names of authors in place of *et al*;
Falodun A, Siraj R, Choudhary MI. GC-MS Insecticidal Leaf essential oil of *P. staudtii* Hutch and Dalz (Icacinaceae). Trop J. Pharm Res. 2009; 82:139-143.

Conflict of interest session should be included, and if there is no conflict of interest, this should be stated clearly as follows; **The authors declare no conflict of interest.**

A declaration of the liability of the authors for claims relating to the content of this article should also be included when submitting the revised manuscript. This should be stated as follows;

Authors' Declaration
The authors hereby declare that the work presented in this article are original and that any liability for claims relating to the content of this article will be borne by them.

All comments/corrections made by reviewers should be completely addressed, point by point, and make appropriate changes in the manuscript, or provide a suitable rebuttal to any specific request for change that has not been made.

All corrections/changes made in the manuscript should be highlighted in yellow when submitting the manuscript in the revised form on or before 5th August 2023

The authors should carefully revise and correct the manuscript taking into consideration the comments of all the reviewers. **50% of the references cited should be between 2016-2020. The revised and corrected manuscript should be subjected to plagiarism checker (17% allowed in TINPR) and English language editing. Evidence of the checks should be attached when submitting the revised/corrected manuscript.**

During submission of the revised manuscript include another file labelled "**Responses to reviewers' comments**" (a matrix) clearly showing your responses to each of the issues raised by the reviewers; mention the section, page and paragraph/lines where and how the changes/corrections have been made.

Strictly adhere to the author guidelines. Make sure that all the facts and information provided in the manuscript are correct. Check grammar, spelling, spacing, other information and facts including scientific names, formulae, symbols, equations, etc.

Ensure that all the references are correctly cited in the text and list. Verify all the references from their original sources. Confirm correctness of the citation info such as authors' names (surnames, initials, spelling, arrangements, etc), year, title, journal, volume, pages, punctuation, etc. The numbers and units must be presented according to the journal style. Use clearly distinguishable patterns for the illustrations/figures (e.g., graphs and charts) such that they should be legible even for black and white printing or when reduced in size.

Proofread the whole document after effecting all the corrections. The revised version should be approved by all the co-authors before submitting it.

A manuscript not complying with these and other instructions will not be processed and may be rejected.

Please find the attached review comments for your revisions.

Best regards

Excuse me..

when did the article in the name of Nilawati Uly et al. with the title "Improvement of Insulin Secretion and Pancreatic β -Cell Function in Streptozotocin-induced Diabetic Rats Treated with *Dioscorea esculenta* Extract" will be published?
Can it be published before September 20? Because it will be used for office purposes before that date. Thank you in advance.
